

AVK SWING CHECK VALVES WITH LEVER WEIGHT PRESSURE LOSS, DN50, DN65, DN80 AND DN100

AVK SWING CHECK VALVES WITH LEVER WEIGHT PRESSURE LOSS, DN125, DN150 AND DN200

Pressure loss - Series 41 - Weight Out - DN125, DN150 and DN200

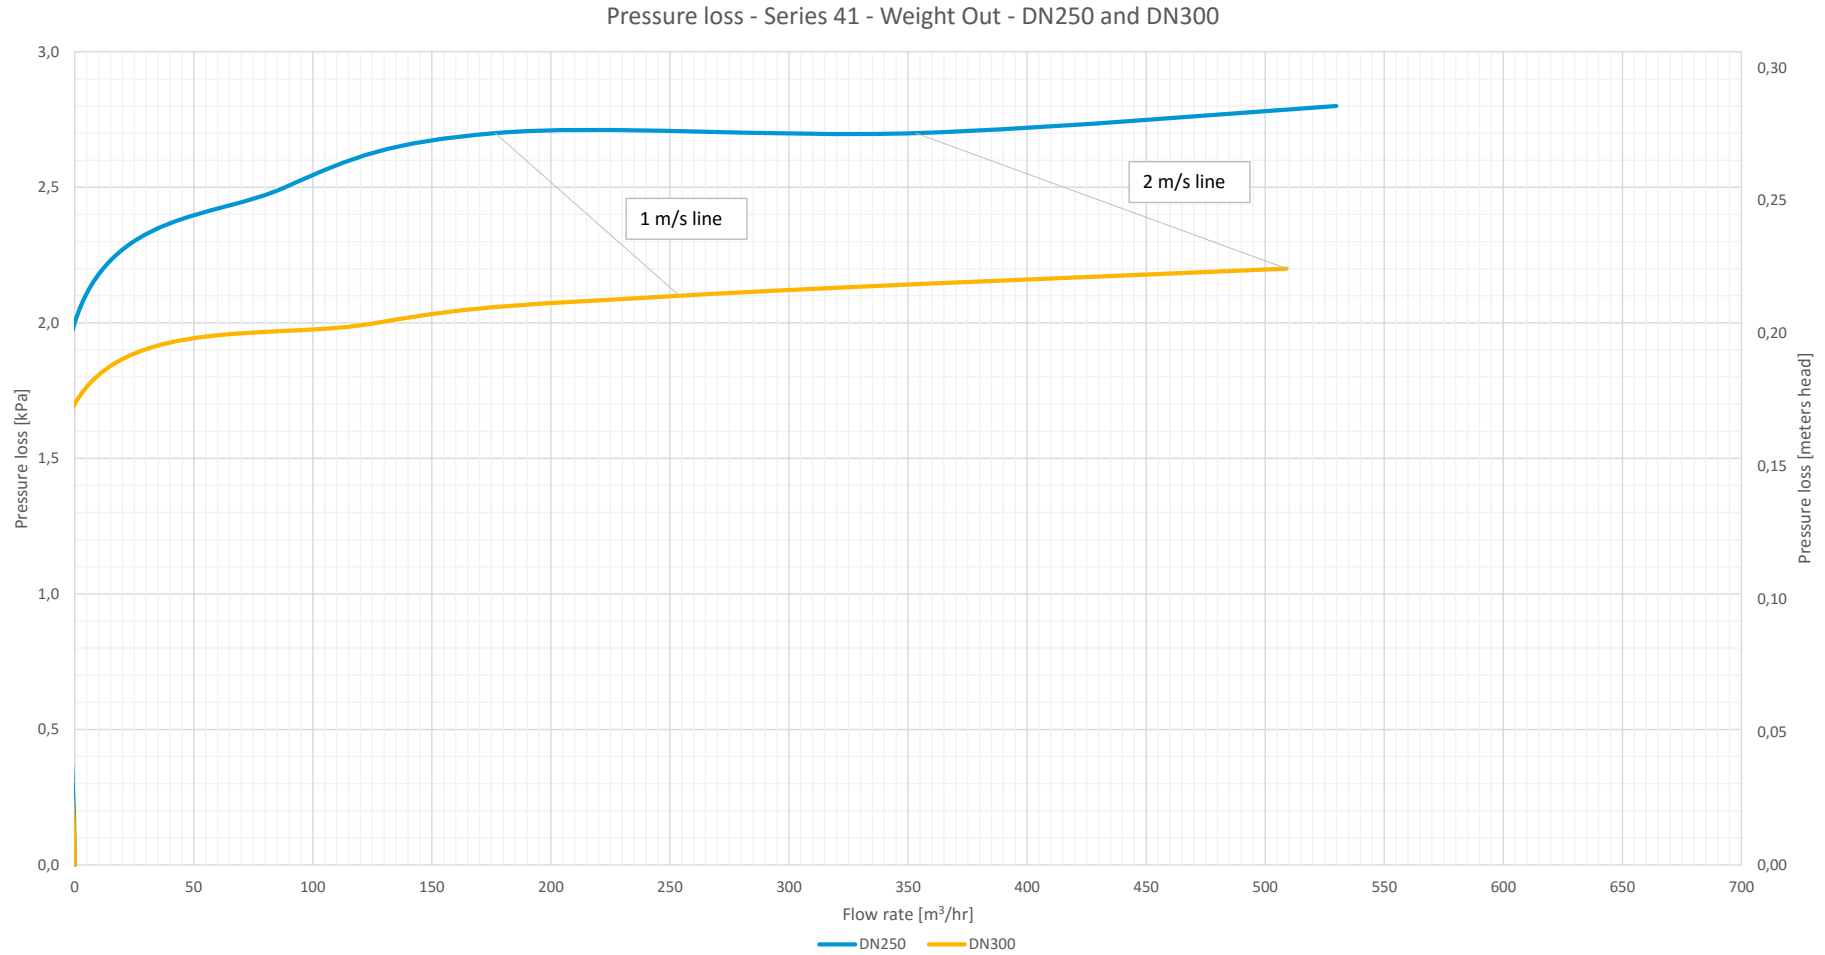

These curves are based on tests, performed according to EN1267, with a horizontal installation.
 DN125, fully open check valve at approx. 55m³/hr (1,24m/s) - DN150, fully open check valve at approx. 75m³/hr (1,18m/s) - DN200, fully open check valve at approx. 140m³/hr (1,24m/s)

AVK SWING CHECK VALVES WITH LEVER WEIGHT PRESSURE LOSS, DN250 AND DN300

These curves are based on tests, performed according to EN1267, with a horizontal installation.
DN250, fully open check valve at approx. 220m³/hr (1,24m/s) - DN300, fully open check valve at approx. 230m³/hr (1,30m/s)
